

## Benefits to Schools

- FREE to the school or district. No software or hardware to buy. No sign-up fees and no ongoing fees!
- Meal credits drop automatically into Meal Tracker® Point of Sale within minutes. No need to manually adjust balances – no user involvement at all!
- All other payment types are user-defined. You can set a minimum and maximum credit for each payment type. Each payment type can have a unique email notification and bank deposit.
- Reduced labor hours spent processing payments.
- Faster serving lines – students with money on accounts are served faster.
- Fewer charges and fewer bad checks, resulting in improved financial performance.
- Fewer phone calls from parents.
- Administrative tools, including report abilities.
- Marketing materials provided.

## Benefits to Parents

- Convenient! Parents may add payments any time, day or night, using a VISA or MasterCard (debit or credit).
- Safe! Credit card information and parent registration is protected with the most sophisticated security available (secure-socket layer with 128-bit digital encryption).
- Parents may also use EZSchoolPay.com to simply check their child's meal account balance, which is updated every ten minutes.
- No more lost checks or envelopes.
- Peace of mind knowing their child will get the meals and services they need.

## Benefits to Students

- No interruption of activities, services, or meal service!

## About EZSchoolPay.com

Parents begin by creating a secure password and account. To link their child to the account, they will need to know the zip code of their student's school, their student's ID number, and their student's last name. They are now ready to begin adding payments using a VISA or MasterCard.

Parent registration and meal account balance monitoring are free. A small transaction fee is added to each online credit.

Payments received by EZSchoolPay.com are transferred electronically to the school or district bank account twice each month.
